- List individual budget items for each category in the central column, with their individual costs.
- Enter the overall cost for that category in the third column.
- List items and their relevant details and costs.
- All costs should be listed excluding GST.

**Budget items not supported:** Funds will not be provided for the following;

- Funding will not be provided for standard items of office equipment (e.g. computers), editing or proof-reading costs, or operational costs for any team member or their organisation.
- Grants will be awarded for new research only and not for deficit financing of existing research.

Budget Category	Items requested (include individual costs)	Justification of the Budget	Amount Requested for Category
	e.g. Research Assistant - Casual, Grade 2 (PhD) - 100 hours @ \$68p/h	Explain why each item listed is essential for the project; do not simply restate information that is already provided in the budget. For example, it is not enough to say in the justification that a senior research assistant costs \$X per annum, as this should already be shown in the budget. Justification of the claim should state why an item is required. The same level of explanation is required for all items. For example, if a full-time senior research assistant is requested: • Why can't this work be done without a research assistant? • Why are they needed full-time as opposed to part-time or casual appointments? • Why is the experience of a senior research assistant, rather than a more junior assistant required?	Must be a dollar amount.
